NT-8512-2 POLYESTER /SILIC. MASKING TAPE

This data sheet was provided to you by Tewipack Uhl GmbH. The company tewipack Uhl GmbH assumes no responsibility for the topicality and the Accuracy of the information contained. The properties of the products can vary due to various influences such as composition and condition of the Substrate, impurities in or on the substrate, temperature and humidity at the Change storage and environmental conditions during use. Using this product in combination with other material, the customer is responsible for to check through our own tests whether the product is suitable for the planned combination and whether this combination delivers the expected results

NT-8512-2 POLYESTER / SILICONE MASKING TAPE

SINGLE COATED TAPE

NT-8512-2 is a high-tack green polyester (PET) silicone-coated with controlled adhesion and excellent abrasion resistance. This protective mask removes cleanly with no adhesive residue. The controlled level of crosslinking assures a proper balance of adhesion to substrates and chemical and temperature resistance.

FEATURES & BENEFITS

- Suitable for bonding different surfaces
- Fine line definition
- Clean removal / No adhesive residue
- Chemical resistance
- High temperature resistance
- Abrasion resistant
- Good conformability

PRODUCT CONFIGURATION

- 50,8 μ Polyester Film
- 38,1 μ Silicone Adhesive
- Green color

PERFORMANCE

Peel Adhesion (N/cm):	5 N/cm
Elongation:	150%
Tensile Strength (N/cm):	87,6 N/cm
Tack:	1077 g
Temperature Range:	-51°C to 177°C (232°C short time)

TYPICAL APPLICATIONS

- Powder coating
- Splicing siliconized papers; films; textiles
- High temperature masking
