## 3M PAINT PROTECTION FILM 8591 AND 8592

This data sheet was provided to you by Tewipack Uhl GmbH. The company tewipack Uhl GmbH assumes no responsibility for the topicality and the Accuracy of the information contained. The properties of the products can vary due to various influences such as composition and condition of the Substrate, impurities in or on the substrate, temperature and humidity at the Change storage and environmental conditions during use. Using this product in combination with other material, the customer is responsible for to check through our own tests whether the product is suitable for the planned combination and whether this combination delivers the expected results

# 3M™ Paint Protection Film 8591 and 8592

## Technical Data Sheet

3M™ Paint Protection Film 8591 and 8592 are excellent alternatives to molded protectors which can detract from finished vehicle appearance. The materials have been rigorously tested for gravel chip resistance as well as cracking, chalking and dulling due to natural weathering. The films have excellent clarity and gloss retention, and show excellent tensile strength and resistance to elongation or shrinkage. The films do not have a clear coat, making them especially suitable for use in non-visible areas such as for metal separators, hose wraps and as a body hole filler.

The tough, durable, virtually invisible urethane films will keep vehicles looking newer longer, without changing the design features or color. The films create a barrier and protect vulnerable surface areas such as front bumpers, side mirrors, door handle cavities, door edges, rocker panels and rear fender panels.

3M Paint Protection Film 8591 and 8592 features include:

- Nearly invisible protection against scratches, part wear and corrosion
- No clear coat – ideal for protecting non-visible surfaces
- Pressure-sensitive adhesive makes for fast, efficient application without curing
- Flexible, die-cuttable film makes application to complex automotive surfaces easier
- Die-cut, pre-masked parts and simple dispensing tools help reduce production costs
- Polyurethane film base resists chipping, scratching, staining and yellowing
- Developed specifically for protecting automotive surfaces from scratches, galvanic corrosion, abrasion and wear

### Applications

Rocker Panel

Bed Leading Edge

Hood Leading Edge

Fender

Wheel Edge

Door Handle

Rear Quarter Panel

Trunk Ledge

### Product Construction

- Polyurethane Film
- Acrylic Pressure Sensitive Adhesive
- Paper Liner

**Physical Properties**

	8591	8592
Color	Transparent	Transparent
Thickness without Adhesive	0.305 mm (12 mils)	0.152 mm (6 mils)
Overall Thickness	0.356 mm (14 mils)	0.203 mm (8 mils)

**Product Characteristics**

Characteristics	Results
Shrinkage	< 0.1%
Tensile	30 MPa (4350 psi)
Elongation	> 400 %

**Performance Properties**

Performance tests are run using standard test procedures in 3M laboratories. These values presented are typical and not to be used for specification purposes.

Test Description	Results
<b>180° Peel Adhesion (Aluminum)</b>	
20 minutes at room temperature	600 N/m (3.4 lb/in)
72 hours at room temperature	700 N/m (4.0 lb/in)
168 hours at 70°C/158°F	700 N/m (4.0 lb/in)
168 hours at 35°C/95°F & 100%RH	700 N/m (4.0 lb/in)
Thermal Cycle	700 N/m (4.0 lb/in)
<b>Stain Resistance</b>	
Unleaded gasoline; Diesel fuel; Motor oil	Moderate discoloration
<b>Gravelometer</b>	
SAE J400 - 2 cups of gravel at 25°C/77°F	Pass – no paint chipping
<b>Natural Weathering</b>	
24 months at 45° south-facing Arizona exposure; 24 months at 5° south-facing Florida exposure	Slight discoloration - No cracking, chalking, or dulling

**Availability**

3M™ Paint Protection Films are available direct from 3M or 3M-approved converters. Contact your 3M Automotive Division account representative for roll sizes, minimum order quantities, prices, and terms and conditions of sale.

**Application Conditions**

Recommended temperature range of 24 ± 6°C for part, vehicle body, and ambient conditions. Heat or cool as needed to maintain required temperature range. Clean application area is required.

**Shelf Life**

One year from date of receipt by customer when stored in original packaging at 22 ± 4°C and at a maximum moisture of 60% RH.

## Regulatory Information

Please refer to the product label and Article Information Sheet (AIS) for health and safety information before using.

## Contact Information

The information provided in this technical document is intended as a guide for these products. For more information or help in selecting a 3M product for an application, please contact your 3M technical service representative or call 1-800-328-1684.

**Technical Information:** The technical information, recommendations and other statements contained in this document are based upon tests or experience that 3M believes are reliable, but the accuracy or completeness of such information is not guaranteed. **Product Use:** Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user's method of application. **Warranty, Limited Remedy, and Disclaimer:** Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price. **Limitation of Liability:** Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
